Re: Tennessee Multi-Sector Industrial Stormwater Permit  
Permit Tracking Number: TNR053980  
E. I. DuPont De Nemours & Co., Inc. - Old Hickory  
Old Hickory, Davidson County

Dear Mr. Haid:

The Division of Water Resources (Division) recently discovered during a file review that your permit coverage under the *Tennessee Storm Water Multi-Sector General Permit for Industrial Activities* (TMSP) has expired. A review of our records revealed that you have not submitted a Notice of Intent (NOI) for coverage under the TMSP. Therefore, your facility's stormwater discharges are not authorized. Point source discharges of stormwater from facilities with industrial activities, such as your facility's, without coverage under a valid permit are a violation of the *Tennessee Water Quality Control Act of 1977*.

If industrial activities are to continue, a completed Notice of Intent (NOI) and a topographic map that identifies the location of your facility should be submitted to obtain coverage under the TMSP. Please submit this information to Stormwater NOI Processing, Tennessee Division of Water Resources, 312 Rosa L. Parks Avenue, 11th Floor, Nashville, TN 37243-1534. You may also scan and send the paperwork electronically to [Water.Permits@tn.gov](mailto:Water.Permits@tn.gov). The TMSP and provisions are available online at <http://www.tn.gov/environment/article/permit-water-npdes-industrial-stormwater-general-permit>.

Your prompt attention to these matters is greatly appreciated. If you have any questions regarding this matter please contact me at 615-687-7128 or by email at [Erin.O'Brien@tn.gov](mailto:Erin.O'Brien@tn.gov).

Sincerely,

Erin O'Brien  
Program Coordinator
